ACKNOWLEDGMENT TO REFEREES

The editors greatly appreciate the efforts of members of Editorial Panel and referees who have assisted over this Volume of **Green Farming Journal**.

GREEN FARMING

Vol. 2 [Issues 1-6 (Bi-monthly), January to December 2011]

(Contents list available at www.greenfarming.in)

KEYWORDS INDEX

A		<i>Bemisia tabaci</i>	347	Calcium chloride	446
2, 4-D	210, 479	Beneficiaries	742	<i>Callosobruchus chinensis</i>	99
<i>Abelmoschus esculentus</i>	199, 393, 415, 552, 682	Beneficiary farms	723	Calorific value	116
<i>Acacia nilotica</i>	162	Bengal bamboo	455	<i>Capsicum annum</i>	62, 68, 78, 97, 145, 312
Acid value	432	<i>Bhendi</i>	513		485, 543, 680
Adlibitum	496	<i>Biasi</i>	73	Carbohydrate	516
Adoption	435, 702	Bioagents	227, 230, 563, 567, 571 577, 582	Carbon and nitrogen source	345
Adoption behaviour	690			<i>Carcelia illota</i>	686
Agricultural exports	730	Biochemical	375	Carrier based inoculants	567
Agriculture extension programme	629	Biochemical attributes	443	Carrot	59
Agri-export zones	598	Biochemical constituents	11	<i>Carthamus tinctorius</i>	112, 661
Agrocure	80	Biochemical parameters	459	Castor	70
Air-drying	366	Biochemical traits	387	Categories of farm women	629
Alfisols	379	Biocompost	546	CCC	244
Alkaline water	196	Bio-efficacy	53	CFB box	472
Allelopathy	328	Biofertilizer	166, 173, 459, 524, 658	Chemical composition	735
<i>Allium cepa</i>	170, 548, 675	Biofuel	744	Chemical fertilizers	312
<i>Aloe barbadensis</i>	366	Bio-inoculants	32, 53	Chickpea	65, 191, 253, 325, 382, 505, 516, 636, 686
<i>Aloe vera</i>	366	Biomethanated spentwash	405	Chilli	78, 97, 145, 485, 615, 680
Alphonso mango	449, 452	Biometric	665	China aster	244
<i>Alternaria alternata</i>	91, 97, 345, 485, 563, 584	Bio-organics	481	Chlorophyll	94, 127
<i>Alternaria brassicicola</i>	94, 574	Biopesticides	87	<i>Cicer arietinum</i>	65, 191, 253, 325, 382, 505, 516, 636, 686
<i>Alternaria dianthicola</i>	571	Bioremediation	122		
Amendments	42, 87	Biozyme	408		
Amino acid	94, 116	Bittergourd	158, 421		
Amylase	142	Bivoltine	612		
Animal drawn rotary tiller	462	Blackgram	182, 227, 319

Aims and Scope of the Journal

Green Farming is an Bi-monthly International Journal of Applied Agricultural & Horticultural Sciences. It publishes and promotes original research papers, short notes and reviews on all newly-emerging areas in the crop, soil, water, energy, food technology and environmental sciences related to the subject of the journal. The Journal prefers articles on eco-safe farming, high-tech agriculture / horticulture & forestry etc. in all agro-ecosystems in the tropics. The papers related to crop improvement, crop production, soil science, horticulture, biotechnology, plant physiology, crop protection, agro-forestry, soil and water management, agriculture environment, agriculture engineering, food sciences, economics, dairying and animal husbandry etc. may be submitted for publication to foster eco-safe, applied and innovative technology for achieving sustainable agriculture, nutritional & rural livelihood security. The journal is managed by the eminent agriculture scientists & editorial board for screening the papers before publication.

Invitation to Authors

Authors are requested to send research papers, reviews, short notes and technical articles on the following themes :

Organic farming, eco-safe agri-horticulture, hi-tech horticulture, food security, biodiversity, biofertilizers, bioinoculants, biopesticides, biofuels / bioenergy, biofortification, biomarkers, biomonitoring, bioinformatics, biofencing, biocomposting, vermicomposting, biogas-manure, bioremediation, biodynamic agriculture, bioparks, biometeorology, precision farming, biomass recycling, bio-floating garden, crop residues management, soil health & decline of pH, soil biology, soil conditioners, organic amendments, mulching, green manuring INM, seed health, organic seed, bio-resource engineering, biopatenting, biomass technology, biosecurity, biosafety, NFSA, genetic engineering, molecular biology and molecular farming, nano-technology, integrated farming systems, agrarian crises, second/third green revolution, technology for green environment, green-house, organic herbs, impact of environment on crops, global & abrupt climatic change & mitigation, SOC sequestration, carbon sink, elevated CO₂, natural resources management, conservation agriculture, beekeeping-pollinators and toxicity, medicinal plants, phytochemicals, phytotoxin, pheromones, micro-irrigation, agro/food-processing, organic food, food supplements, biopreservatives, value-addition, post-harvest technology, market certification & intelligence, agri-export, agri-business & phytosanitary regulations, etc.

Special issues will be published periodically on current topics, therefore, papers should be submitted well in advance.
