# GREEN FARMING

International Journal of Applied Agricultural &amp; Horticultural Sciences

(Abbr. *Green Farming Int. J.*)

---

**Volume 1      Number 6      November-December 2010 (New Series)      Bimonthly**

---

## CONTENTS

*Previous Issue :*  
Vol 1, no. 5, pp 441-550

|                                                                                                                                                                                                               |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Transformation of mothbean ( <i>Vigna aconitifolia</i> ) cotyledonary nodes through vacuum infiltration of <i>Agrobacterium tumefaciens</i><br><b>S. Kumar, G. Singh, R.S. Jat, S.N. Saxena and R. Sharma</b> | 551 |
| Variability study in sweet sorghum ( <i>Sorghum vulgare</i> )<br><b>D.A. Shinde, V.C. Kodapully, P.P. Patil and B.D. Jadhav</b>                                                                               | 555 |
| Exploitation of heterosis for grain and cooking quality characteristics of early duration rice hybrids<br><b>A.N. Kambe and S.R. Ramgiri</b>                                                                  | 559 |
| Evaluation of genetic diversity of horsegram ( <i>Macrotyloma uniflorum</i> ) germplasm through phenotypic trait analysis<br><b>Ganesh B. Kulkarni</b>                                                        | 563 |
| Assessment of genetic variability, heritability and genetic advance for yield & yield attributes in maize<br><b>D.G. Atkari, P.B. Wadikar and A.A. Chavan</b>                                                 | 566 |
| Soil health as influenced by integrated nutrient management in palmarosa ( <i>Cymbopogon martinii</i> )<br><b>A.R. Gajera, A.M. Bafna, R.G. Patil and Z.N. Patel</b>                                          | 568 |
| Performance of maize-sunflower-greengram cropping system as affected by organic farming<br><b>K. Tejeswara Rao, D. Srinivasula Reddy and Y. Ramu Reddi</b>                                                    | 572 |
| Yield and quality of betelvine ( <i>Piper betle</i> L.) as influenced by integrated nutrient management<br><b>Usha C. Thomas and S. Chandini</b>                                                              | 576 |
| Preparation of phosphorus enriched compost : Effect of doses of rock phosphate and microbial inoculums<br><b>Partha Sarathi Patra and Subhendu Bandyopadhyay</b>                                              | 580 |
| Soil characterization, leaf nutrient status, fruit quality & yield of papaya grown in Nagpur & Wardha districts<br><b>N.S. Nikas, U.R. Agarkar, G.K. Piwlatkar, K.D. Dadmal</b>                               | 584 |
| Soil sampling methodology in grape vineyards for evaluation of nutrient status<br><b>S.U. Deshmukh, J.N. Kalbhor, T.S. Mungare and U.K. Bhoje</b>                                                             | 588 |
| Effect of herbicides on <i>Fluorescent pseudomonads</i> and spore forming bacilli<br><b>P.C. Latha and H. Gopal</b>                                                                                           | 591 |
| Residual effect of nutrient management on productivity and its economics under lucerne – paddy sequential cropping<br><b>A.P. Patel and N.M. Chauhan</b>                                                      | 594 |
| Nitrification study of non-edible oilseeds cake, <i>Jatropha curcas</i> L. : Potential as organic fertilizer<br><b>Neelu Singh</b>                                                                            | 597 |
| Genetic analysis for grain yield and quality in <i>durum</i> wheat ( <i>Triticum durum</i> D.) under late sown condition<br><b>R.A. Gami, C.J. Tank, S.S. Patel, R.M. Chauhan and C.G. Patel</b>              | 600 |
| Influence of organic farming on biochemical composition of wheat<br><b>Pratibha Singh and Suresh Kumar</b>                                                                                                    | 602 |
| Effect of green manuring <i>in-situ</i> on yield, nutrient uptake and soil available nutrients in chilli ( <i>Capsicum annum</i> )<br><b>A. Lalita Kumari</b>                                                 | 604 |
| Developments of cue-lure delivery system for male annihilation technique for the management of fruit fly, <i>Bactrocera cucurbitae</i> infesting cucurbit crops<br><b>D.B. Sisodiya and R.C. Jhala</b>        | 606 |

|                                                                                                                                                                                                                    |                   |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| Evaluation of the insecticidal activity of botanicals against <i>Spodoptera litura</i> (Fab.)<br><b>S.S. Kulat, S.S. Munje and U.P. Barkhade</b>                                                                   | 612               |
| Performance of different types of sprayers for application of pesticides in mango orchards<br><b>K.G. Dhande, A.G. Powar, M.P. Tekade and G.S. Kadam</b>                                                           | 615               |
| Field efficacy of the biopesticide ( <i>Metarhizium anisopliae</i> ) against sugarcane white grub ( <i>Holotrichia serrata</i> )<br><b>C. Thamarai Chelvi, W. Richard Thilagaraj and R. Kandasamy</b>              | 618               |
| Biology of potential predator, <i>Mallada boninensis</i> Okomoto on mango mealybug, <i>Ferrisia virgata</i> Ckll.<br><b>S.A. More, A.L. Narangalkar, B.D. Shinde, C.P. Gharge and P.B. Pachankar</b>               | 621               |
| Quantification and recovery of <i>Zygogramma bicolorata</i> Pall. for management of <i>Parthenium hysterophorus</i><br><b>R.O. Deotale, P.N. Dawane and H.B. Goramnagar</b>                                        | 623               |
| Effect of grain mold on physical properties of grains of sorghum genotypes<br><b>S.D. Somwanshi and B.P. Kurundkar</b>                                                                                             | 626               |
| Microbial contaminants of cultured banana ( <i>Musa</i> sp.) tissues<br><b>A.T. Daunde and R. N. Wadikar</b>                                                                                                       | 630               |
| Effect of biopesticides, organic amendments and chemicals on the incidence of leaf spot ( <i>Cercospora rauvolfia</i> ) in Sarpagandha<br><b>T. Arumugam, V. Premalashmi and M. Theradimani</b>                    | 633               |
| Evaluation of green gram germplasm against yellow mosaic virus under field conditions<br><b>S.V.S. Gangadhara Rao, Ravi Kumar and S. Krishnam Raju</b>                                                             | 636               |
| <i>In vitro</i> evaluation of some organic extracts and botanicals to control <i>Fusarium solani</i> causing chilli wilt<br><b>M.G. Yelmame, B.P. Mehta, A.J. Deshmukh and V.A. Patil</b>                          | 638               |
| Economic and financial feasibility of beekeeping in Haryana<br><b>Vijay K. Kaushik, K.S. Suhag, S.K. Sharma and Ishwar Dutt</b>                                                                                    | 641               |
| Characterization of milk clotting cysteine protease of <i>Euphorbia nivulia</i> Buch.-Ham. latex<br><b>Shamkant B. Badgujar and Raghunath T. Mahajan</b>                                                           | 645               |
| Growth and instability of soybean in Vidarbha, Maharashtra<br><b>Prema Borkar, V.M. Bodade and E.R. Patil</b>                                                                                                      | 649               |
| Efficacy of synthetic repellents on acceleration of natural-mounting and its effect on cocoon and reeling parameters in silkworm, <i>Bombyx mori</i> L.<br><b>M.T. Himantharaj, Amardev Singh and G.S. Vindhya</b> | 651               |
| Studies on the quality of lobia seeds influenced by the infestation of pulse beetle during storage<br><b>S.R. Wankhede, R.P. Gajbhiye and S.U. Charjan</b>                                                         | 654               |
| Laboratory performance evaluation of groundnut planter<br><b>V.A. Bhapse and R.G. Nadre</b>                                                                                                                        | 656               |
| Optimum spacing and economical layout of raingun irrigation system for sugarcane crop<br><b>A.S. Nagare and G.L. Chunale</b>                                                                                       | 659               |
| Studies on viscosity of guava jam at different temperature and shear rate<br><b>Roopa Bai R.S., P.S. Pisalkar, S.K. Jain and R.P. Murumkar</b>                                                                     | 662               |
| Root-zone technology for waste water management : A critical review<br><b>Bhupendra Kr. Soni, Saurabh Kharadiya, Sangeeta Loonker and Praveen Mathur</b>                                                           | 664               |
| Management of leaf reddening in Indian Bt. cotton needs a multidisciplinary approach<br><b>Vijaykumar N. ghante, Ranjith Kumar L. and Rajesh Chowdary L.</b>                                                       | 668               |
| <b>Author Index</b>                                                                                                                                                                                                | 669               |
| <b>Keyword Index</b>                                                                                                                                                                                               | 671               |
| <b>Invitation to Authors &amp; Subscription Information</b>                                                                                                                                                        | 676               |
| <b>GREEN FARMING Vision - 3 : Tracking climate change through forestry and energy options</b><br><b>Pradeep Chaudhry</b>                                                                                           | Inside back cover |
